

Odor Control Piping

Application: Wastewater treatment plant using piping to eliminate odors

Location: Gooding, Idaho

Product: 14"/16" F-Chem® and 6"/8" Centricast® RB-2530 Pipe and Fittings

Features & Benefits: F-Chem pipe is a cost effective alternative to 316 stainless steel. The high strength, durability, and corrosion resistance of fiberglass provides a long service life.

R 2530 provides excellent corrosion resistance and UV protection due to the 10 mil resin rich barrier. The product is easy to install due to its light weight. The pipe's performance ability reduces maintenance and replacement costs.
